

EQUIBASE FREE DATASET OVERVIEW

We are pleased to offer you the complete set of Past Performances and Result Charts for the 2023 calendar year. There are two main data files: 2023 PPs.zip and 2023 Result Charts.zip. Once extracted, the file naming conventions and schemas are as follows:

Past Performance Files

The file naming convention of the Past Performance file is:

SIMDyyyyymmddTRK_CTR.xml, where

SIMD = file type,

yyyy – year,

mm – month,

dd – day of month,

TRK – two- or three-character track code,

CTR – two- or three-character country code

Schema: <http://ifd.equibase.com/schema/simulcast.xsd>

Result Charts

The file naming convention of the Result Chart file is:

TRKyyyyymmddtch.xml

TRK – two- or three-character track code,

yyyy – year,

mm – month,

dd – day of month,

tch – file type

Schema: <https://info.trackmaster.com/xmlSchema/tchSchema.xsd>

In addition to these files, an Equibase Parameters spreadsheet has also been included for your review.
